Creating Opportunities • Créer des possibilités

## POST-SECONDARY EDUCATION OPPORTUNITIES

### WHAT IS CASE MANAGEMENT?

Inclusion NB's Case Management program is for students (ages 18-30) with an intellectual or developmental disability, who are accepted to NBCC/CCNB through the Special Admissions program.

Inclusion NB's Case Management program supports students to achieve their goals through:

- Identifying supports needed to have a positive and successful experience at NBCC/CCNB;
- Assisting in the preparation of applications for funding (for example, NB Student Loans);
- Monitoring of supports and progress of students;
- Assisting the student in identifying and coordinating work placements;
- Assisting the student in securing employment opportunities in their field of study following graduation.

# JUST ENOUGH SUPPORT

Inclusion NB's Post-Secondary Facilitators and students plan together using the Just Enough Support model, which recognizes the importance of seeking the right balance of natural supports (like friends & family) in addition to accessing different types of technology and community-based services.

The purpose of this approach is to build bridges and help the person expand their social relationships, personal autonomy and greater independence.

Case Management is about supporting students to gain the essential skills and education in their career of choice through post-secondary education and gaining employment in their chosen field after graduation.

This program is available in all the NBCC and CCNB campuses across the province.
